SUBJECT: **2020-21 WebGrants College Cost Estimate Screen**

This Operations Memo from the California Student Aid Commission (Commission) announces that institutions are now able to submit College Cost Estimates in WebGrants. The Cost Estimate information you provide will be used by the Commission to determine the financial need and award amounts for the 2020-21 Cal Grant applicants.

College Cost Estimate Screen

- Your institution must update the 2020-21 estimated cost information by overwriting the pre-populated fields. If the 2020-21 cost estimates are not available, please update this information with the final 2019-20 figures.
- If the school does not provide updated information for the 2020-21 academic year, the Commission will use data from the 2019-20 year.
- The Commission anticipates processing the first 2020-21 preliminary Cal Grant awards for the High School Entitlement program beginning November 2019. Therefore, the WebGrants College Cost Estimate screen should be updated and completed by **Friday, October 25, 2019**.

Access to the Cost Estimate screen is granted by your school's WebGrants System Administrator. The [School Information WebGrants User Guide](#) is available in WebGrants on the Help page. Cost Estimate screen instructions begin on page 7.

Clarification of Budget Information

- Institutions must provide cost information for three budgets:
 - On-Campus
 - Off-Campus
 - With Parents
- Enter the budget information for **all estimated attendance expenses excluding tuition and fees**. Tuition and fees are to be entered in another location on the screen.

- The sum of the tuition, fees, and on-campus, off-campus or with parent's information should equal the same budgets the institution will use when determining financial need for the 2020-21 financial aid award year. Please ensure the data is entered in this manner to ensure accurate Cal Grant awards can be made for your campus.
